Karimnagar, Telangana, India

EDUCATION

- B.Tech in Computer Science (Cybersecurity) – Sumathi Reddy Institute of Technology for Women (Expected 2026)
- Intermediate (87.7%) – Alphores Junior College
- SSC (10 CGPA) – Kakatiya High School

PROFESSIONAL SUMMARY

Motivated Computer Science student specializing in Cybersecurity with a strong foundation in software and web development. Proficient in programming, database management, and front-end design. Passionate about creating secure, efficient, and user-centered digital solutions.

TECHNICAL SKILLS

- Languages: C, Java
- Web Technologies: HTML, CSS, React.js
- Databases: MySQL, MongoDB
- Coursework: Operating Systems, DBMS, Computer Networks, Data Structures and Algorithms

PROJECTS

Faculty Leave Management System – HTML, CSS, MySQL, Node.js

- Developed a full-stack web application to automate faculty leave requests, approvals, and history tracking.
- Built a role-based access system allowing employees and HODs to manage and review leave data securely.
- Integrated MySQL for dynamic data storage and retrieval with Node.js backend API handling CRUD operations.
- Implemented email-style real-time notifications and dashboards for improved communication efficiency.
- Reduced manual workload by 70% through automation and optimized data flow across multiple user roles.

Career Guidance Platform – HTML, CSS

- Designed and developed an interactive career guidance platform offering personalized career insights for students.
 - Applied front-end web technologies to create a clean, responsive interface for improved accessibility.
 - Structured navigation system for career paths and learning resources with a focus on usability and engagement.
 - Collaborated with team members to ensure scalability and future feature integration possibilities.
 - Enhanced user retention through intuitive layout and consistent user interface principles.
-
